# Azure DevOps Engineer

Location: Indore | Work from Office | Mid-Level (3-6 Years)

As a custom software development company, every day, we challenge ourselves, think outside the box, and embrace new technologies and ideas. It's not just about meeting deadlines; it's about achieving greatness together keeping our clients at the center of everything that we do.

Thanks to our customer-centric approach, our clients consider us not just as a service provider but as a reliable partner who goes above and beyond to deliver exceptional results. We instill confidence in our clients by listening to their needs, understanding their challenges, and providing innovative solutions that exceed their expectations.

Our Journey

From a garage to a swanky state-of-the-art office in Indore in just 9 years, we are central India's leading software development company.

What are we looking for

We seek individuals who share the passion to go above and beyond the call of duty to serve our clients. We value go-getters who focus on the solution and not just the problem. Join us if you are excited about being a part of a team that is redefining customer excellence and technology innovations every day.

As an Azure DevOps Engineer, you will be responsible for designing and implementing CI/CD automation, resolving client issues on Azure, managing and monitoring infrastructure, ensuring security, authentication, and authorization, and supporting the development team in establishing project-specific services. You will also provide expertise in billing and cost management on Azure infrastructure and work independently to meet client needs.

Responsibilities

- Design, implement, and maintain CI/CD pipelines to automate the software development lifecycle.
- Resolve client issues on Azure, ensuring high availability and performance of applications.
- Manage and monitor Azure infrastructure to ensure optimal performance and reliability.
- Implement security measures, including authentication and authorization, to protect Azure resources.
- Assist development teams in resolving Azure-related issues and establishing project-specific services.
- Provide expertise in billing and cost management, offering insights and recommendations to optimize infrastructure spending.
- Work independently to design, implement, and manage Azure cloud solutions according to client requirements.
- Collaborate with cross-functional teams to ensure seamless integration and delivery of solutions.
- Stay updated with the latest Azure services, tools, and best practices.
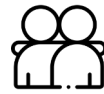

Must-have Skills

- Bachelor's degree in computer science, Information Technology, or a related field.
- 3-6 years of experience as a DevOps Engineer with a focus on Azure.
- Experience with CI/CD tools such as Azure DevOps, Jenkins, GitHub Actions, etc.
- Experience in scripting languages such as PowerShell, Bash, Python, etc.
- Hands-on experience with infrastructure as code (IaC) tools like ARM Templates, Terraform, or Ansible.
- In-depth knowledge of Azure services including Azure VMs, Azure Functions, Azure App Services, Azure SQL, etc.
- Strong understanding of network security, authentication, and authorization in Azure.
- Experience with monitoring and logging tools such as Azure Monitor, Log Analytics, Application Insights, etc.
- Good problem-solving skills and the ability to troubleshoot complex issues.
- Strong communication and collaboration skills, with the ability to work effectively in a team environment.
- Azure certifications (e.g., Microsoft Certified: Azure DevOps Engineer Expert) are a plus.

What is on Offer

Competitive salary and benefits package (health insurance, paid time off, etc.)

Well-defined buddy program for every new joiner

Dedicated mentors to help you learn and perform efficiently in your projects

On-project deployment from day 1 to help you learn and rise on-the-go

Conducive work environment that includes festival celebrations, regular events, etc.

Flexible work hours to maintain work-life balance

Equal Opportunity Commitment

At Arna, we foster an environment where every employee feels valued, respected, and empowered to contribute their unique perspectives and talents to our success. We welcome people from all backgrounds irrespective of their race, color, religion, gender, sexual orientation, national origin, disability, or age.

Next Steps

Please submit your resume, cover letter, and portfolio of relevant work through our web portal and send it to **hiring@arnasoftech.com**. Your cover letter should include a brief discussion of how your experiences align with the specific needs of this role.
